

CF7330 AS

CF7330 AS is a static dissipative, exceptionally strong PTFE-coated CHEMFAB® glass belting fabric for use in demanding, high temperature environments where superior release is essential. It has a characteristic black textured surface, resulting in it being the fabric of choice in areas where the product being processed needs to assume an embossed appearance. It is ideally suited for use in large belts.

CF7330 AS is typically used in the carpet and floor covering industries, particularly where rubber or PVC backings are being processed.

Typical Properties

Property	Value	Value	Test Method
Weight	g/m ²	1015	FTMS 191A-5041
Thickness	mm	0.760	FTMS 191A-5030
Tensile Strength	N/cm	900 x 800	FTMS 191A-5102
Trap Tear Strength	N	150 x 220	FTMS 191A-5136
Surface Resistivity	Ω/sq	<1 x 10 ⁶	ASTM D257-78
PTFE Content	%	43	-
Temperature Resistance	°C	-150 to +260	-
Standard Width	mm	2350	-

The fabrication of a conveyor belt from the above product requires the fabric to be cut and squared. This will involve a reduction in width, and thus the exact minimum width can only be confirmed on receipt of any enquiry with belt dimensions.
