

CF9014

CF9014 is a CHEMFAB® 4x4mm open mesh conveyor belting fabric based on a coated woven fibreglass fabric. It has a leno weave structure which is very open and mechanically stable. It allows high levels of air circulation but still has excellent release characteristics.

CF9014 is specifically designed for use as a dryer belt in a wide range of drying and curing ovens particularly in the screen print and textiles industries.
