

CLF910*

CLF910 belongs to the CHEMFAB® family of flexible, non-porous, PTFE composites that combine the features of multi-layer fluoropolymer cast films with the mechanical properties of fibreglass-reinforced fabrics. This product is specifically designed to be extremely smooth with excellent release properties and increased wear and abrasion performance due to a harder wearing surface. CLF910 is specifically designed for use in food applications such as contact grilling and fat frying.
